**Subject:** RE: Referenzschreiben Personenführungsanlage PM-55

Good Morning Rene,

The PM-55 PA system is working well in our Muster Stations. Since we are using the PM-55 we managed to cut the drill time by around 10 minutes and the whole operation looks much more organised and professional. The sound produced by the PM-55 is sufficient for our needs and the announcements can be heard from all corners of the muster stations. From what I observed during the pax drills, the PM-55 will be a great tool to have during an emergency.

Mit freundlichen Grüßen / Best Regards,

**Omar Caruana**
